

01 | Problem Statement

The MSE Compliance Gap

- > 63 million MSEs in India face complex BIS compliance requirements
- > Weeks spent manually identifying applicable standards
- > 500+ BIS standards in Building Materials alone
- > Non-compliance risks: penalties, market rejection, safety failures
- > No affordable, accessible tool exists for smaller enterprises

Key Design Decisions

Dual-Field Chunk Design

text_to_embed — Metadata header + content → fed to MiniLM encoder
5-line header: IS Number · Title · Section · Source

content_only — Scope + Requirements only → fed to LLM generation
Saves ~180 tokens of LLM context per query (6 chunks × 30 tokens)

Illustrative Example — Cement Manufacturer

User Input

Product: OPC 53 Grade Cement

Use: Structural concrete, RCC

Role: Manufacturer, BIS license pending

Reformulated Queries

Q1: "OPC 53 grade cement compressive strength IS specifications"

Q2: "Portland cement BIS license CRS mandatory requirements"

Q3: "cement fineness setting time soundness test IS 269"

Top Recommendations Returned:

IS 269:2015	IS 1489 Pt.1	IS 4031
Ordinary Portland Cement Mandatory: Yes (CRS) Confidence: High → Apply via BIS Simplified Procedure	Portland Pozzolana Cement Mandatory: Yes (CRS) Confidence: Medium → Apply via BIS Simplified Procedure	Methods of Physical Tests Mandatory: Voluntary Confidence: High → Apply via BIS Simplified Procedure

07 | Impact on MSEs

From weeks of confusion to minutes of clarity.

BEFORE BISfit

- ❌ 6–8 weeks searching BIS website manually
- ❌ Consultant fees of ₹50,000–₹2,00,000
- ❌ Risk of applying wrong / outdated standard
- ❌ No clarity on mandatory vs. voluntary
- ❌ No actionable next step for certification

AFTER BISfit

- ✅ Standard recommendations within few seconds
- ✅ Zero consultant dependency for initial scoping
- ✅ Grounded strictly in official BIS documents
- ✅ Mandatory / CRS flag shown per recommendation
- ✅ Direct certification pathway mapped per standard

BISfit bridges the compliance knowledge gap for 63 million MSEs — making BIS standards accessible, actionable, and fast.
